### Self-Study

Please think deeply about the words of the Law of Forgiveness; the Violet Consuming Flame. Take them a sentence at a time into meditation. Don't let them just be words. This is the greatest gift for your freedom from the human experience.

I AM the Law of Forgiveness; the all Consuming Violet Flame which consumes instantly the cause and the effect, past, present, and future, and the record in my mental and feeling world of every mistake that I have ever made towards every person place condition or thing; from every embodiment that I have ever lived from the moment I left the great central sun and to that which I return.

- Through the power of the Violet Consuming Flame, take out of my mental and feeling world all that is acting *knowingly* and *unknowingly*.

*You may have an issue that you keep thinking about (**knowingly**) or, you may have accepted some human suggestion of lack and limitation that has anchored in your feeling world (**unknowingly**)*

- Every Cause has an **Effect**.
- Rehashing old hurts and resentments (**Past**)
- Something going on in your world now (**Present**)
- Consumes the effect before it manifests in your world. (**Future**)

Here's a thought . . .

Every thought from every century is floating in the atmosphere. Yikes!

- Mighty I AM Presence; give my brain a golden light bath.
- (Visualize a golden light saturating your brain)
- I AM the quickening of the cells of my brain structure, causing it to expand and receive the intelligent direction of my Mighty Inner Presence I AM.

There are **records** and **patterns** in your mental and your feeling world.

The Law of forgiveness is the only way to *permanently* dissolve them and transmute them into Light. Remember, that you are removing the accumulation of centuries. If you are diligent in your calls, The Great Divine Director **will remove 2/3** of your human creation as a gift of his Love. That gives you **1/3** to transmute.

- I AM wrapped in a mantle of Divine Love from the Great Divine Director.

What a gift!
